HAYNES LIBRARY

Librarian's Report

The library has been opened 52 Saturdays, afternoon and evening, until the middle of October when it was thought best to open only in the afternoon from 1 till 5 P. M. And this has, as last winter, seemed to prove very satisfactory.

Whole number of books let out for the year	1,248
Average number drawn each day	24
Number of new books purchased	55
Fiction donated by friends	14

A summer resident here donated ten volumes of Stevenson's works and five volumes of Edgar Allen Poe's works. The usual number of books have been sent by the state consisting of reports and the New Hampshire Laws. There are also on our table the Geographic Magazine and Country Gentlemen. The Readers' Digest has been given most of the time the past year. The library has been well patronized and the books on the whole are well cared for by those taking them out.

Respectfully submitted,

MRS. EVA PHILLIPS,
Librarian.

Mr. E. P. Freese
Supt. of Schools
Bristol, N. H.

Dear Sir:

I hereby present my annual report as school nurse for the town of Alexandria for the school year 1934-35.

Number of pupils examined—71

21 pupils were 10% underweight

2 pupils showed defective vision, uncorrected

3 pupils showed slight deafness

1 pupil showed symptoms of nervous disease

45 pupils had defective teeth

5 pupils have enlarged diseased tonsils

1 pupil had defective breathing

1 pupil probably has adenoids

1 pupil showed enlarged glands

A dental clinic was held in Dr. Davis' office. It was financed by the proceeds from a party given by the Social Club and a program given by the children. The entire expense of the clinic was paid for by this money. The work listed below was done:

42 children were examined
 37 children were treated
 Number of porcelain fillings—2
 Number of amalgam fillings—27
 Number of cement fillings—2
 Number of copper cement fillings—9
 Extractions—Temporary—4
 Cleaned—15

Alexandria received \$55.86 from the Child Health Recovery fund. The following work was made possible with money:

One child's teeth were cared for. Three children were fitted with glasses. Two had tonsilectomies. Two pupils with defective hearing had examinations made to determine the cause. An obstruction was removed from one child's ear. This work was all done in the summer of 1934 by Miss Moynihan.

Cod liver oil was provided for underweight children during cold weather.

Seven children received $\frac{1}{2}$ pint of milk daily during the winter.

One child was transported to Bristol to be fitted for glasses.

Twenty-seven visits have been made to twenty-five families including thirty-eight children.

Thirty-eight visits have been made to schools.

Conferences have been held with State relief and welfare workers.

Classroom inspections have been held at frequent intervals for symptoms of pediculosis and skin disease and other contagion.

The children have been measured twice and weighted three times and reports were sent home.

It is hoped to secure a tonsilectomy operation for one child later in the month.

My hearty thanks are due the group who made possible such a splendid dental clinic by their kindly interest and support. I also wish to thank the teachers, parents, and members of the community who have so heartily supported my work in the past year.

Respectfully submitted,

EVA M. NELSON, R. N.
